

Contents

Introduction	1
<i>Andrew Izsák, University of Georgia</i> <i>Janine T. Remillard, University of Pennsylvania</i> <i>Jonathan Templin, University of Kansas</i>	
Chapter 1	Coordinating Conceptualizations of Mathematical Knowledge With Psychometric Models: Opportunities and Challenges 5
<i>Andrew Izsák, University of Georgia</i> <i>Jonathan Templin, University of Kansas</i>	
Chapter 2	Applications of Item Response Theory in Mathematics Education Research 31
<i>Daniel M. Bolt and Jee-Seon Kim, University of Wisconsin, Madison</i> <i>Maria Blanton, TERC</i> <i>Eric Knuth, University of Wisconsin, Madison</i>	
Chapter 3	Diagnostic Classification Models and Mathematics Education Research: Opportunities and Challenges. 53
<i>Jimmy de la Torre, Rutgers, The State University of New Jersey</i> <i>Guadalupe Carmona, University of Texas at San Antonio</i> <i>Vincent Kieftenbeld, Pacific Metrics</i> <i>Hartono Tjoe, Penn State Berks</i> <i>Cynthia Lima, University of Texas at San Antonio</i>	
Chapter 4	Developing Workable Attributes for Psychometric Models Based on the Q-Matrix 73
<i>Curtis Tatsuoaka, Case Western Reserve University</i> <i>Douglas H. Clements, University of Denver</i> <i>Julie Sarama, University of Denver</i> <i>Andrew Izsák, University of Georgia</i> <i>Chandra Hawley Orrill, University of Massachusetts Dartmouth</i> <i>Jimmy de la Torre, Rutgers, The State University of New Jersey</i> <i>Elvira Khasanova, University of Buffalo</i> <i>Kikumi K. Tatsuoaka, Columbia University, Emeritus</i>	

Chapter 5	A Comprehensive Framework for Integrating Innovative Psychometric Methodology Into Educational Research . . .	97
	<i>Jonathan Templin, University of Kansas</i>	
	<i>Laine Bradshaw, University of Georgia</i>	
	<i>Pamela Paek, American College Testing</i>	
Chapter 6	Examining and Understanding Dimensionality in the Context of Instrument Development: Considerations From the Classroom Video Analysis Instrument Measuring Usable Teaching Knowledge in Mathematics	119
	<i>Nicole B. Kersting, Philip A. Stevenson, and Mei-Kuang Chen, University of Arizona</i>	
Chapter 7	Purpose and Conceptualization: Examining Assessment Development Questions Through Analysis of Measures of Teacher Knowledge	139
	<i>Chandra Hawley Orrill, University of Massachusetts Dartmouth</i>	
	<i>Allan Cohen, University of Georgia</i>	
Chapter 8	The Interaction Between Measure Design and Construct Development: Building Validity Arguments.	155
	<i>Erik Jacobson, Indiana University</i>	
	<i>Janine T. Remillard, University of Pennsylvania</i>	
	<i>Mark Hoover, University of Michigan</i>	
	<i>Wendy Aaron, Oregon State University</i>	
Chapter 9	Measured Mathematics	175
	<i>Jeremy Kilpatrick, University of Georgia</i>	
Chapter 10	Multidisciplinary Development of Assessments for Educational Research: A Measurement Perspective	183
	<i>Louis V. DiBello, University of Illinois at Chicago</i>	
	<i>James W. Pellegrino, University of Illinois at Chicago</i>
